

# BIRTHDAY BANNER TUTORIAL

Check out [www.melissaesplin.com](http://www.melissaesplin.com) for more tutorials.

## Supplies:

Paper  
Pencil  
Scissors  
Grosgrain Ribbon  
Matching Thread  
Sewing Machine

## Notes:

The paper I used for this project was discontinued wallpaper, so it was very sturdy. I would suggest using cardstock or a heavier-weight paper for this project.

You'll need enough paper for 14 triangles of main paper and 20 triangles of backing paper.

## Step 1:

Trace & cut out triangles using attached template.  
14 triangles of paper **A**  
20 triangles of paper **B**

## Step 2:

Pair triangles together:  
14 sets of **A** & **B** back to back.  
3 sets of **B** & **B** back to back.  
Sew only the long sides together using your machine's longest stitch length.

## Step 3:

Lay out triangles in order.  
Sew the top edges to the ribbon using the widest zigzag stitch on your machine.

## Step 4:

Cut and paste your HAPPY BIRTHDAY text (or whatever else you use) across the **A** sides and hang!

## TRIANGLE TEMPLATE

Cut out:

- 14 triangles of paper **A**
- 20 triangles of paper **B**
