

# DIY BOW BRACELET *tutorial*

## SUPPLIES

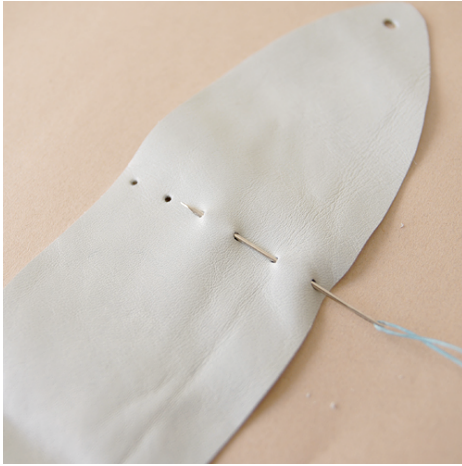

- hammer
- scissors
- hole punch
- clamp or bulldog clip
- double-stick tape
- button-stud
- leather 10x3inches
- needle (not pictured)
- thread (not pictured)

Cut out your pattern pieces, affix double-stick tape to the back & place on your leather. Cut out leather.

Punch holes in designated spots on pattern. If using a button stud, punch one of the end holes larger than the other.

Sew through middle holes with needle & thread, starting from the front, weaving in & out.

Pull thread together to create pleats & cinch together with your clamp. Tie a square knot on the back side.

Wrap the smalls trap around the middle of the cuff, making the holes at the end match up. Insert needle from outside to inside.

Make a figure 8 with your string & tie a square knot. This should secure your strap in place.

Cut a 1/4 inch slit in the larger hole to allow for the button stud. Affix the button stud to the other end. Button & wear.
