Wrap the measuring tape around your wrist twice & mark measurement. Cut out your leather strip to be:  $\frac{1}{2}$  inch x (wrist + 7  $\frac{1}{2}$  inches)

Mark a discreet dot 1 inch from each end of the strip & 3  $\frac{1}{2}$  inches from each end. Punch holes with your hole punch.

Line up the two holes either by placing one atop the other (like above) or by folding the ends in half (like right image, top bracelet). Trim raw edges like above.

Affix snaps (buttons or button studs) where the holes are. Use the provided instructions for setting the snaps. Double around your wrist & wear!
